Broome Community College

SPRING 1992

*Phi Theta Kappa President, Cheryl Ireland adds more than her "2 cents" to help others.*

## Helping Friends in Need

**I**n an effort to assist fellow students, members of Phi Theta Kappa, Broome Community College's Honor Society developed "S.O.S." (Support Oneonta Students).

The program was put into place as a result of two different fires that victimized nearly 40 SUNY Oneonta students in late February. Both the American Red Cross and Salvation Army in Oneonta described the situation as "desperate."

In March BCC conducted a "round up" in both the bookstore and cafeteria. Students, faculty and staff were asked to round up their purchases to the nearest dollar and donate the change towards a fund to purchase linens (sheets, blankets, pillow cases, towels) for the students.

BCC students decided to "come to the rescue" upon learning of the tragic loss. Phi Theta Kappa President, Cheryl Ireland said, "We can empathize with how difficult it must be to not only lose your home and material possessions, but also all of your books and class notes. College is difficult enough without these kinds of obstacles."

In order to get the needed items to the students quickly the Salvation Army purchased the linens in advance and presented them to the students with a card from BCC. The students plan to continue the program until enough money is raised to cover the cost.

## **FOSTERING INTERNATIONAL EDUCATION AT BCC**

**I**n December the second group of scholars under the Cooperative Association of States for Scholarships (CASS) Program graduated from BCC. The first group completed their studies in August. The students were awarded AAS degrees in Industrial Technology with Emphasis in Quality Assurance. They have since returned home to serve the needs of their nations. Most of them are assuming important positions and applying training experience obtained at BCC.

Sponsored by the US Agency for International Development and administered by Georgetown University, the CASS Program and its predecessor, the Central American Scholarship Program, have been in existence for six years. The program provides opportunities for higher education to disadvantaged yet deserving students from Central American and Caribbean nations.

Students receive academic training as well as opportunities for professional growth and a knowledge of life in the United States. In turn, the CASS Program enhances BCC's commitment to international education and mutual cooperation.

For the first six months students live with host families to become familiar with U.S. culture and language. Many students arrive with little or no English and practice what they learn at BCC by conversing with their host families. Students and families have enjoyed taking trips and vacations and celebrating typical American holidays together. Through the

*A group of CASS students stopped to pose on the steps of the Museum of National History in New York City on a recent trip.*

CASS Program and BCC, students are able to visit museums and cultural landmarks in New York City, Boston, Philadelphia and Washington, DC.

The CASS students greatly contribute to the community at large. During the two-year program they participate in school activities such as sports teams (six of BCC's soccer players last fall were CASS students) and the International Student Organization. They created, with the support of the American Society for Quality Control (ASQC) Binghamton Section, the ASQC Student Chapter. They give presentations on their home countries at local high

schools, coach youth soccer teams, participate in church activities and every year they join the League of Women Voters to help during election night reporting at the Broome County Board of Elections.

Host families are currently being sought for a new group of CASS students expected to arrive in August. There is a monthly stipend for room and board and it's a great opportunity to make new friends. Past host families give the CASS students high marks for appreciation, participation in family activities, sharing ideals and just having fun! If interested, please contact the BCC CASS Office at (607) 771-5058. □

## DECKER HEALTH SCIENCE CENTER GETS FINAL APPROVAL

**W**ith the recent passage of the budget by the New York State Legislature, the Decker Health Science Center can now become a reality. Calls to the offices of Assemblyman James Tallon and Senator Thomas Libous (BT '73) confirmed that the \$5 million request for State capital funds, which was included in Governor Cuomo's final budget submitted to the Legislature, remained intact after legislative scrutiny and the final vote.

According to BCC president Dr. Donald

Dellow, many people were helpful in securing the Governor's help. Included are State legislators Assemblyman Tallon, Senator Libous and Assemblyman Richard Miller.

Also helpful, according to Dr. Dellow, were college trustees, Health Sciences advisory committee members, other community leaders, and College staff. Dellow further stated that the editorial support of the local news media was instrumental in getting the Governor's backing, as well as that of the legislators.

The total cost of the Decker Project is \$10 million. Funding began with private

support of \$1.5 million: \$1 million from the Dr. G. Clifford and Florence B. Decker Foundation, with the remainder coming from 12 other private sources.

Another commitment of \$3.5 million was received from Broome County with unanimous support from County Executive Timothy Grippen and the County Legislature.

With State approval, the project can now proceed. The first step will be the choosing of an architect. Actual site preparation and construction is likely to begin either late in 1992 or spring, 1993, according to College officials. □

## PLANNED GIVING

**S**o what is this "Planned Giving," you ask. Fair enough.

Planned Giving is the term referring to gifts that require a professional person to complete (staff and possibly donor's advisor). Usually they are larger, one-time gifts to establish endowed funds, the principal to be invested and the income to be used to support the Foundation generally or for one specific program. They nearly always are named for the donor or for a loved one of the donor.

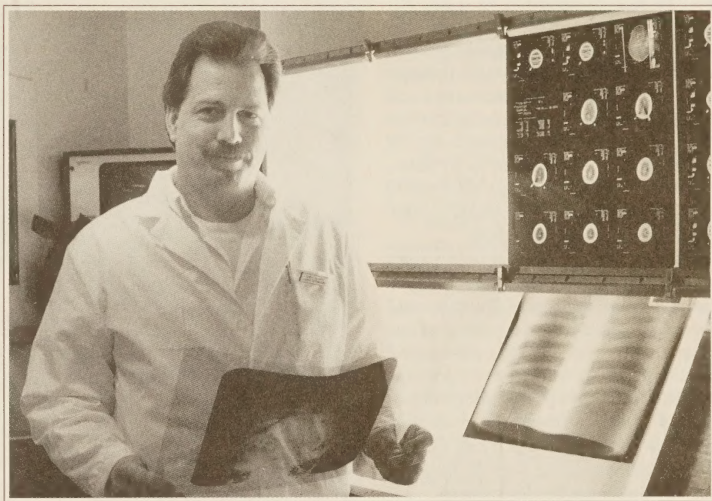

To date, most planned gifts have been made by regular contributors to the Annual Fund, the success of which is essential to the Foundation's ability to serve. Whether given in one's lifetime or by bequest, planned gifts provide numerous tax benefits to the donor while serving the College and its students forever. As well as those given annually, lifetime gifts of this nature may be matched by employers.

Though not an exhaustive list, most planned gifts have been received in the following ways:

- **BEQUEST** - With simple language, a gift can be left in one's will. The income can be used for general purposes or for a special interest of the donor;
- **LIVING ENDOWMENT** - One-time or periodic gifts made to establish a fund during one's lifetime. Retirement, the loss of a friend or family member, a large taxable transaction, any of these and more can be the reason;
- **POOLED INCOME FUND** - A life-income plan that allows the donor to receive regular income, an up-front tax benefit and, finally, the establishment of a specific endowed fund. Because the Pooled Fund is already established, there is no cost to the donor for this purpose.

All of these gift vehicles can be funded with cash gifts, appreciated securities, real property or life insurance.

For information on the above or any other facet of Planned Giving, please write or call Roger Hartman, BCC Foundation, P.O. Box 1017, Binghamton, NY 13902. Phone (607) 778-5000, ext. 5182. □

*Thanks to two scholarships, Randy Hillman found a new lease on life.*

## CHANGING CAREERS MIDSTREAM

**R**andy Hillman is trying to make lemonade after being dealt a few lemons. Like many, Randy lost his job as a result of the recession. Unlike many, this thirty-seven year old decided to go back to school and change careers.

Randy started by visiting the Counseling Center at BCC. An Interest Inventory Exam revealed some surprising results: his top interests/skills were photography and x-ray.

He chose to pursue a career in Radiologic Technology after reading a lot of literature and speaking with others in the profession. One of the biggest selling points was that he found the security of the medical field appealing.

In his first semester at BCC Randy received a scholarship for \$150 from the Mildred Faulkner Truman Foundation. The scholarship is given to a Tioga County resident based on financial need. "The money covered the cost of my books and gave me a good start," he said.

Randy faced yet another set-back when his wife lost her job last fall. He was forced to consider finding a job to make ends meet while putting school on hold. Luckily, a second scholarship came through.

"The \$850 scholarship from Dr. and Mrs. Orville F. Nielsen was the deciding factor that enabled me to continue my schooling", he said. The Nielson scholarship is given to a student who has successfully completed two semesters of study with a minimum 2.0 grade point average preferably in the area of Health Sciences. Financial need is also an additional requirement.

Upon graduation in May, Randy hopes to find work locally as an X-Ray technician.

With a 3.9 grade point average, the scholarship donors can consider Randy Hillman a good investment. □

## TOM CARTER... "STICKING" TO IT

Once you've seen Tom Carter's act you never forget it. He's the very tall, very fit guy who wears running attire and travels around the country spinning a basketball on the end of a 21' stick. Not many can fit this description.

Tom, BCC's Intramural Director and Fitness Center Supervisor, found overnight fame after a very long road trip, a three-pointer, a standing ovation and a little "Magic." He explains the secret of his success in this interesting interview...

**How did this all begin?** In 1970, my idol, Pete Maravich played for LSU and could spin a basketball on the tip of his finger. I wanted to learn how to do this trick so I practiced for nearly a year until I got good at it. Once I could do it well, I picked up a broken golf club from my desk and spun the basketball on the end of it. It worked great so I wanted to try something longer. I went into the woods and found a four foot long stick and that worked great. Everything just evolved from there.

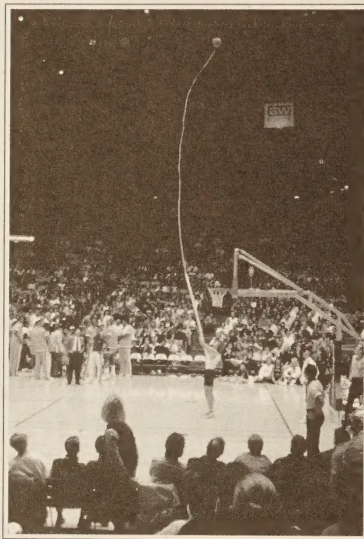

**How long is the stick you're using now?** I have two sticks. I call them stick one and stick two. I found them near Ely Park and I guess my best one, stick one, is twenty one feet long. I slide copper tubing on the end of it and extend it to thirty feet when I perform.

**When did you begin performing in front of groups?** I started doing it at road races during the awards ceremonies. (note: Tom has been voted "Runner of the Year" by the Press & Sun Bulletin for the last four years)

**How did you get national attention?** My big break came when former BCC Athletic Director, Tony Quagliata, talked the Orlando Magic team into giving me a try-out. I drove down with my stick tied to the roof of my car and they put me in during a time-out in the fourth quarter. I made a three-pointer and got a standing ovation. There were many NBA scouts there who wanted me to perform during their games so ever since then I've been traveling and performing my routine.

**How often do you perform?** This year I'm doing 27 NBA and major college games. I travel on weekends and use my vacation time.

**How are you received?** I've done 20 of 27 NBA arenas and there's a big difference in crowd response. People look at me like I'm a three legged horse or a two headed person. It's just such a weird thing to them. If I make a shot there's always applause. If I miss I get booed. I've been booed in Houston, Dallas...Denver was rough. I've been well received in Los Angeles, Phoenix and Miami. It's an up and

Tom Carter performing his famous drop shot at the Great Western Forum as the L.A. Lakers look on.

down thing. A lot of it depends on how the home team is playing.

**Do you have an agent?** Yes, I am professional now with an agent who takes care of the financial arrangements including travel and hotel expenses.

**You seem to enjoy what you're doing.** Oh, yeah. All the players and coaches stop and watch me and after the game they'll come up and ask questions. They appreciate it more than anyone because they understand what goes into it. I remember noticing Larry Bird and Magic Johnson watching me.

**Who is your favorite team?** The Orlando Magic. Nothing can compare to what happened in Orlando. My favorite team to perform in front of though is the Los Angeles Lakers. It's wild performing in front of all the Hollywood stars.

**What's your best shot?** My most spectacular shot, when it works, is my drop shot from twenty five feet above the basket. When I make it the crowd loves it. But I'd have to say my best shot is my three-pointer. I've made that 83% of the time.

**I know you've been on ESPN and America's Funniest People. Tell me about them.** I teamed up with the Phoenix Sun's gorilla for a slam-dunk that made ESPN's "Play of the Week." That was pretty exciting. As far as "America's Funniest People," someone videotaped me performing at a road race and submitted it to the show. I received a call saying I was a finalist for their inaugural show. They flew me out to Los Angeles and I ended up winning second place and three thousand dollars. I still don't know who submitted the tape.

**What do you think about your success** I'm prouder of it than my accomplishments as a runner. This is a personal achievement. It's my own invention and nobody else can do it. It's become a profession. Incidentally, BCC gets some publicity when I perform. The college is mentioned on the PA system when I'm introduced and I wear a BCC tank top.

**What are your plans for the future?** Just to finish the tour and then I'll start training for competitive running. For now I'm just enjoying living out my dream come true. □

- Michele King

*"People look at me like I'm a three-legged horse or a two-headed person. It's just such a weird thing to them."*

(L To R) Dinner & Dance Chair Mary Ligouri, Award "Nominator" Clifford Signor, BCC President Donald Dellow, Award recipient Carl Gitlitz, Scholarships & Awards Chair Linda Mapes, and Alumni Director Michele King.

## GITLITZ NAMED RECIPIENT OF BALDWIN SERVICE AWARD

**C**arl R. Gitlitz has been named the 1992 recipient of the Richard Baldwin Distinguished Service Award. The award is presented annually by the BCC Alumni Association.

A presentation was made on February 8 at the Annual Alumni Association Dinner and Dance at St. Michael's Hall in Binghamton. Over 200 guests were in attendance.

Gitlitz has a record of lengthy service to the College including his appointment by Governor Rockefeller to the Board of Trustees in 1963. He was one of the founders and first president of the BCC Foundation, chairman of the BCC Board of Trustees, volunteer attorney and advisor to the Foundation, chairman of the Broome County Citizens Advisory Committee to BCC, Executive Committee member of the

New York State Association of Community Colleges and member of the BCC Foundation. He is currently associated with the law firm of Bernstein, Gitlitz and Sukloff.

The BCC Board of Trustees recently decided to name one of the renovated lecture halls in Titchener Hall the Carl R. Gitlitz Lecture Hall in honor of Mr. Gitlitz's service and contributions to BCC. This honor will take place following the building's renovation scheduled for 1993.

The BCC Alumni Association has presented the Distinguished Service Award since 1972. In 1987 the name was changed to the Richard Baldwin Distinguished Service Award to reflect retired BCC Basketball Coach Dick Baldwin's long and successful career at BCC.

## WE WANT YOU!

**T**he BCC Alumni Association is seeking candidates to fill upcoming vacant seats on its board of directors. Three year terms run on a fiscal year of July 1 - June 30.

The 17-member board consists of several active committees including Dinner & Dance, Travel, Marketing, Scholarships and Awards, Legislative and Special Projects and Events.

The goals and objectives of the board are as follows:

- **Promote and Support the Objectives of BCC** (Student recruitment, career counseling, placement programs)
- **Provide Substantial, Dependable Financial Support** (Lifetime membership dues)
- **Strengthen Bond Among Members and Community** ("Friend-raising" events, reunions, travel programs)
- **Enhance Quality of Student Campus Life** (Support student activities, finance campus projects)
- **Foster Public Appreciation and Awareness of BCC** (support legislative issues, promote college image)
- **Identify Distinguished Candidates for Awards and Honors** (Alumni of Merit, scholarships for deserving students)

Being a BCC Alumni Association board member enables individuals to make new friends and business contacts while giving something back to the college.

The board meets quarterly, usually on Wednesday evenings. Candidates are required to be graduates of Broome Community College who possess plenty of enthusiasm for their alma mater. If interested please contact Gary Finch no later than May 8th at 778-5000 extension 5082.

Former BCC Athletic Director and Basketball Coach, Dick Baldwin reviews the history of his remarkable career at a recent dedication ceremony in his honor. The Alumni Association funded a plaque, wallcovering, lettering and a display case which is now the permanent home of Baldwin memorabilia in the Student Center. With 879 career wins, Baldwin is the winningest college basketball coach in the country.

## Join Your Alumni Association

Lifetime Memberships  
are only  
**\$25!**

Benefits include travel programs, low-cost group life insurance, discount merchandise, and free admission to many BCC events. Fees help fund scholarships, reunions, special projects and the locator service. For more info or a free brochure call (607) 778-5000, ext. 5036.

## ALUMNI ON THE MOVE

### 1950's

**Carolyn Motyka Ambrose (MA52)**, is retired and is living in Sacramento, CA. Carolyn hopes to see 1952 graduates for the 40th reunion.

**Walter R. Fowler (MT52)**, retired from Microflite Simulation Inter., after 36 1/2 years. Walter was a senior mechanical systems design engineer.

**Barrett L. Jones (BT59)**, has been named senior executive vice president and Central Region executive of the newly formed Key Bank of New York N.A. Previously, Jones was president and chief executive officer of Key Bank of Central New York.

**David McDonald (CT59)**, is a project estimator for Gilbane Building Company, a pharmaceutical research facility. Their client is Sterling Drug, Inc. David lives in Norristown, PA.

### 1960's

**Thomas J. Rugala (BT60)**, retired September 1, 1991 as a staff financial analyst with IBM after 30 years. Tom lives in Charlotte, NC.

**Sandra Sorman Raponi (DH62)**, was recently elected to a three year term on the Board of Selectmen, the executive branch of the local government in Hudson, MA. Sandra was formerly chairman of their conservation commission.

**Walter Baumgardt (CT63)**, has been promoted to head of quality control with the Durez Division of Occidental Chemical Corporation. Walt and his wife, **Carol Anne Winchell Baumgardt (MO64)**, have one son and four daughters.

**Sally Zillic Frenza (LA66)**, was awarded an MS degree in rehabilitation counseling, Syracuse University, class of '91.

**James E. Mondolfi (CT66)**, recently received his professional engineer's license. James is with McFarland-Johnson Engineers of Binghamton, NY.

**Elise Blickens Kennett (AA67)**, was recently promoted to vice president/director of sales at WTVZ-TV/FOX

33 in Norfolk, VA. Her husband, Lindsay Tucker, passed away in 1989 and she recently married William S. Kennett, Jr.

**William A. Doolittle (BT69)**, is living in Clarence Center, NY with his wife and three children. Bill is disabled and is self-employed.

### 1970's

**Thomas F. Chamberlain (BM70)**, is currently serving on the board of directors for NY-Penn Health Systems Agency.

**Judy A. Micha (BT71)**, has been named trust officer of United Carolina Bank, Charlotte, NC.

**Katherine Palmatier Woods (DH71)**, is currently working part-time as a dental hygienist in Clearwater and is on the executive board of the Pinellas County Dental Hygiene Association. Katherine also works as an AIDS educator and is an assistant director of the Campus Alcohol and Drug Resource Center at the University of South Florida where she is pursuing her masters in public health education. Katherine is married and has a son, Brian.

**Steven L. Burghardt (LA73)**, was named SUS Coach of the Year for the 1990-91 season. He coached the Greene Central School varsity basketball team with 15-6 record and the varsity baseball team with a record of 26-1. The baseball team won the 4th straight league championship with a trip to State Final 4.

**John E. Hostetler (IT73)**, has been elected to the office of vice president of the Binghamton section of the American Society of Quality Control.

**Richard G. Jackson (BT73)**, was honored as Tennessee Knights of Columbus Knight of the Year, 1991, in recognition for his outstanding contributions to the Knights of Columbus and his community service work. Richard was past grand knight, Council #7447, and is currently district deputy #8. Anne and Richard live in Columbia, TN.

**Sandra Tillotson (BU73)**, was recently re-elected to her third term as Town of Vestal councilwoman. Sandra is listed in the 1991-1992 edition of *Who Who's in Government Service*.

**William A. Weiler, Jr. (PE74)**, a senior engineer with Haley & Aldrich, Inc., received the 1991 Harl Aldrich Excellence Award. Weiler was honored for his "contributions in the fields of soil dynamics, engineering seismology, earthquake engineering, and seismic hazard assessment, most recently applied to Boston's Central Artery/Third Harbor Tunnel and for his dedication to quality, and his willingness to share his knowledge with other staff." In his 13 years at the firm, Weiler has worked on numerous building projects throughout New England and abroad. Haley & Aldrich is a geotechnical engineering and environmental consulting firm with a 300 person staff headquartered in Cambridge.

**Gerrard J. Burrs (LA75)**, was elected to the executive board of Local #1725 IBEW in July 1991 and also elected as Judge, Town of Smyrna in the November '91 election. Gerrard is a commercial technician with GTE in Norwich, NY.

**Gerald D. Hlopko (BT75)**, recently started Pyramid Associates, a human resource development company based in Binghamton. Gerald is married to Jane Hlopko, an assistant professor at BCC.

**Douglas Kosty (LA75)**, completed his graduation requirements for his BA degree in society and technology at SUNY Binghamton. Douglas is employed by IBM, Endicott during the summer term 1991. Doug and his wife, **Sandy Irvine Kosty (RN76)**, also have a new son, Ryan Douglas.

**David Malchak (BT75)**, after 13 years in real estate industry, has become an owner of his own real estate business.

**Brian J. Szymaniak (PE75)**, was recently named senior engineer, RF and receiver development by IBM Owego. Szymaniak started his IBM career as an assistant engineer in data link processing. In his current position, Brian is the AN/APR-50 receiver unit engineer for the STAR program.

**Clayton M. Ellis (LA76)**, was recently named project manager for NYSEG's annual report to stockholders and for *Perspective 2000*, a new employee communications effort which includes newsletters and quarterly video news magazines. Clayton also is serving his third three-year term on the Vestal board of Education.

**James Strick (CT77)**, is teaching science part time at Princeton Friends School, Princeton University and working full time in a history of science Ph.D. program. James previously taught biology, chemistry, environmental sciences, nuclear issues, and biomedical ethics.

**Charles White (IT77)**, has been elected to the office of alternate vice chairman by the Binghamton Section of the American Society of Quality Control. "Chuck" has a position with Becton Dickinson Corporation.

**Katherine Powers Weller (RN78)**, graduated magna cum laude from Syracuse University with an MS in nursing and recently accepted a position on the faculty staff of St. Elizabeth's School of Nursing.

**Richard J. Libous (BM79)**, has recently been promoted to the position of administrative service officer with Marine Midland Bank.

**Scott D. Miller (BA79)**, is working as an attorney for the Illinois department of labor/fair labor standards division. His work entails arbitrating wage and law disputes and prosecuting child labor law violators. Recently, Scott published a law review article reconciling labor's strike conduct with RICO. Scott and his wife, Robin, a graduate student, live in Chicago, IL.

### 1980's

**William J. Harzinski (BC80)**, completed his BS in accounting at LeMoyne College, Syracuse, NY, after 7 1/2 years of part time study. He is currently the Syracuse district administrator for Barrett Paving Materials, Inc.

**Erica Smith Kornfeind (SC80)**, gave birth to Daniel Richard on Father's Day. Erica and her husband, **Brian Kornfeind (BA81)**, also have a daughter, Jessica Diane. Brian is the Syracuse division manager of Crowley Foods.

**Mark B. McManus (BM80)**, and his family recently moved to Boonville, NY, where Mark owns and operates North Country Testing, a property inspection company.

## Where you live

Ever wonder where every-one disappeared to after graduation? Here's where our BCC alumni live at a glance... (top five states are in pink).

Canada .....	11
Other .....	44
Unknown .....	248
Total .....	24,984

**JoAnne C. Benham (RN81)**, received her masters of professional studies in health care administration and currently is director of nursing at Staffings Healthcare Systems.

**Douglas C. Miller (CT81)**, recently graduated from the University of Central Florida. Doug is currently employed as an engineer with General Dynamics in Tallahassee, FL. His mother, **Rosemary A. Miller (RN81)**, is a staff nurse specialist in Alzheimer's care in Orlando, FL.

**Tamra Drake Schiappa (AA81)**, is currently working on her masters in earth science education, specializing in paleontology, after earning her BA at SUNY Plattsburgh in geology. Tamra and her husband, **Christopher Schiappa (AA80)**, are living in Boise, ID.

**Mark Bednar (CT82)**, was recently promoted to Captain, USAF, in a ceremony at Loring AFB, Maine. He has also received the Air Force Meritorious Achievement and National Defense Service Medals. Mark is currently on temporary assignment in Saudi Arabia. Mark is the son of **Peter M. Bednar (ET58)** of Johnson City, NY.

**Daniel M. Hogan (OH82)**, was recently elected to the office of secretary by the Central New York Chapter of the American Society of Safety Engineers. Daniel is with the Associated Building Contractors.

**Leslee Scott-Efthimiou (BM82)**, is working as a personnel, payroll, insurance administrator with Park Outdoor Advertising of NY, Inc., Ithaca, NY. Leslee and her husband, Eric have a daughter, Rebekah.

**Diane P. Wilson (LA82)**, was installed as vice president/membership officer for 1991-1993, at the executive board meeting of The Southern Tier Lupus Foundation.

**Denise Dutcher Bolebruch (LA83)**, was one of four teachers nominated for 90-91 Teacher of the Year at Bethesda Elementary School in the Research Triangle Park, Durham, NC. She was nominated by faculty and staff at the school, which serves over 600 students. She received her masters degree from SUNY Cortland, and was invited to join the membership of Alpha Delta Kappa Honorary Teaching Sorority, Alpha Mu Chapter. Denise also serves as the 1991-92 secretary of the Cary Jaycees.

**Timothy P. Kavulich (LA83)**, is owner and senior associate of Professional Associates, a private therapy practice. Timothy recently completed his MSW from Syracuse University and CSW from NYS and is continuing work towards a PH.D.

**Philip J. Thompson (MT83)**, was promoted to supervisor of gas operations at NYSEG, Danville, NY. Philip and his wife, Norlene Cummings, have a son, Nicholas Anthony.

**Thomas E. DiNardo (ET84)**, has been named business unit manager for electronic assembly systems at Simplimatic Engineering Co. in Lynchburg, VA. Simplimatic is a leading manufacturer of conveyor systems and machinery to automate production lines. Simplimatic is part of European-based CMB Packaging, the third largest packaging company in the world. Tom previously worked for Universal Instruments Corp. as a systems engineer and then as product manager in the systems division.

**Scott R. Parsons (ET84)**, graduated cum laude from Northeastern University on June 1991. He was just promoted to the position of design modeling and simulation development engineer with Unidroid Integrated Circuits Corporation. Scott and his wife, Kerry, live in Merrimack, NH.

**Maryanne Melnyk Bednarski (AA85)**, has a position with Hilton Hotels Corporation, Beverly Hills, CA, as a legal secretary. Maryanne and her husband, John, are living in Los Angeles.

**Matthew J. Carey (BA85)**, recently accepted a position with Chenango Memorial Hospital as coordinator of Chenango Health Network. Matt has a BS degree in personnel and human resources management from Rochester Institute of Technology.

**Linda C. Olson (IT85)**, has been elected chairperson of the membership certification committee of the the Binghamton Section of the American Society of Quality Control. Linda is a quality engineer at SCI Technology in Owego, NY.

**Donald E. Wenzinger (BA85)**, was recently featured in a *Press & Sun-Bulletin* article. Don is entertainment program development manager for Doron Precision Instruments Inc. Doron is maker of the SR2 entertainment simulators for amusement parks and attractions. Don's job is to produce the films that go along with sound and motion, in a way that gives riders the look and feel of adventure. Doron's latest adventure will be a wild ride on water skis through an Everglades-type lake.

**Dena Delgado Burnam (AC86)**, recently received an associate degree in claims from Insurance Institute of America.

**Jacqueline L. Henry (BA86)**, recently moved to San Jose, CA, where she is an assistant restaurant manager with the Doubtless Hotel in Santa Clara.

**Ronald L. Williams (ET86)**, received his bachelor of technology degree from the Watson School at SUNY Binghamton, May 1991. Ron is currently employed as a manufacturing engineer at SCI Systems in Owego, NY.

**Tammy M. Langevin (OT87)**, has a position as a secretary with IBM Armonk, which is IBM's world headquarters.

**Christina Hasemann (LA88)**, is employed by Robert Packer Hospital and Bradford County Manor Nursing Home in Troy, PA as a clinical dietitian-long term care. It is "Tina's" first position in her professional field after finishing a dietetics internship through Marywood College and The Community Medical Center in Scranton, PA. She is also continuing her studies for her masters in nutrition.

**John R. Kintner (ET88)**, recently founded Kinetic Technologies, a manufacturer's representing company. John is married to Antionette Stillitano Kintner (EC88).

**Gail A. Winchell (CSA88)**, has a position with Windsor School District as a teacher/computer assistant. Gail is also with The Teacher Center in Binghamton, NY.

**Patty Elaine Clark (AS/IS89)**, recently earned her BS degree in human services from SUNY Empire State College. She also received a certificate of appreciation from the Mental Health Association. Patty is currently living in Wautoma, WI.

## 1990's

**Kathryn James (AA90)**, was promoted to first level management as engineer/office manager, Nov. 1991, by New York Telephone Co.

**Maria R. Putano (PL90)**, was installed to the office of secretary, for 1991-1993, at the executive board meeting of The Southern Tier Lupus Foundation.
